

College Event Management Platform

Team Name: Apex Vision

Team Number: 29

Date: 28-09-2026

 Problem Statement

College events are currently managed through multiple disconnected tools such as Google Forms, WhatsApp, Excel, payment platforms, certificate systems and attendance systems, resulting in fragmented data, manual work and inefficient event management.

 Solution

A centralized College Event Management Platform that manages the complete event lifecycle — from event creation and registration to payments, communication, attendance, certificates, feedback and analytics — in one place.

ONE CONNECTED LIFECYCLE

Replaces Google Forms · WhatsApp · Excel · separate payment, attendance and certificate tools

Business Model Canvas

8 Key Partners - Colleges & Universities - Student Clubs & Committees - Payment Gateway Providers - Cloud & Notification Service Providers - Certificate / Printing Partners - Faculty & Event Coordinators	7 Key Activities - Create & publish events - Manage registrations - Process payments - Send event notifications - Track QR-based attendance - Generate participation certificates - Collect feedback - Generate event analytics & reports	2 Value Propositions - One platform for the complete event lifecycle - Replaces disconnected Google Forms, WhatsApp, Excel and separate tools - Reduces manual work and data-entry errors - Real-time event and registration tracking - Automated attendance and certificate generation - Simplifies event management for organizers - Better experience for students and participants	4 Customer Relationships - Self-service event management - In-platform notifications - Admin dashboard and support - College onboarding and training - Feedback collection - Student event discovery - Customer support for organizers	1 Customer Segments - Colleges & Universities - College Event Coordinators - Student Clubs & Committees - Faculty Coordinators - Students & Participants - College Administration - External Event Participants
	6 Key Resources - Web / Mobile Platform - Cloud Infrastructure - Development Team - Centralized Database - Payment Gateway Integration - QR Attendance System - Certificate Generation Engine - Analytics Dashboard - Notification System		3 Channels - Direct College Partnerships - College Websites / Portals - Student Clubs - Campus Demonstrations - Social Media - Institutional Referrals - College Events & Workshops	
9 Cost Structure - Software Development & Maintenance - Cloud Hosting & Storage - Database Costs - Payment Gateway / API Costs - SMS & Email Notification Costs - Security & Compliance - Marketing & Customer Acquisition - Technical Support & Customer Support			5 Revenue Streams - Institutional Subscription Plans - Annual College Licensing - Per-Event Pricing - Premium Analytics & Automation - Optional Service / Payment Processing Fee - Sponsorship Opportunities for Large Events - Premium Add-on Features
